# About Kyrgyzstan

Kyrgyzstan is a country located in Central Asia surrounded by lands and mountains. The dominant religion of the country is Islam and its capital city is Bishkek. This country falls on the famous Silk Route, which has a rich history. Silk Route was the major connection channel from China to Middle Eastern Countries. The official language of the nation is Russian though the majority of the population speaks Kyrgyz. English is also becoming popular as a language since it is rapidly being chosen as the medium of instruction.

This country was a part of Soviet Union, just like majority of Middle Eastern Countries and got free in 1993 when Soviet Union was dissolved officially. The major sector of the economy is agriculture and the country is very rich in mineral resources mainly gold and rare earth metals having great demand in global markets. However, the country has negligible crude oil and gas resources especially compared to the neighboring Middle Eastern countries. However, hydroelectric power production is high in the country which allows it to export this energy.

## Education in Kyrgyzstan:

Kyrgyz Republic has made considerable development in last two decades, which has made the nation stand out globally in the fields of medicine, technology and engineering. The people of this country are very progressive in nature and emphasise greatly on education. This is very evident when we see the number of global students studying in Kyrgyzstan increasing at a great pace. The Ministry of Education and Science takes care of the entire education system of Kyrgyzstan.

The country has a very impressive literacy rate of 98.7 %, which is phenomenal as compared to other developing nations. Medical Education in nation is very advanced and Kyrgyz Government invests huge money for medical research and development. This is the reason why many international students are now coming for Medical Studies in Kyrgyzstan.

## Study Medicine from Kyrgyzstan:

Kyrgyzstan is a country where medical education system is highly developed and it is becoming hub for International Medical Aspirants. The medicine field here is highly developed and advanced and this country has contributed a lot to the world. Many international students come to Kyrgyzstan for getting medical degree from the country.

This country is also very famous among Indian Medical Aspirants and every year thousands of students get their study visa to Kyrgyzstan.
