Introduction

Since last year, the number of Indian students who are going to study MBBS in China has been growing tremendously. The Indian students, who decide to study medicine in China, can discover and experience the efficient quality education, good living conditions and enhanced laboratory equipment, without having to pay any sort of donations.

The most eminent factor, now a days, for all parents in India is the sum of the money they have to shell out for their kid to make him a doctor. Even when the student gets more than 90 percentage is not enough for getting a 'no donation' government seat is due to the competition, which has augmented very high. Therefore, the only choice left with them is to pursue the course abroad and amongst all the other destinations to study abroad i.e. Ukraine, China, Philippines, Russia and etc. the most optimal choice is China, due to the of the country’s increasing economy as well as the security.
About Eklavya Overseas

Eklavya Consultancy is an overseas consultancy establishment for education which is entirely dedicated for providing services to Indian students and turning the educational avenues abroad obtainable to them. They are linked with many of the famous educational institutes in the world. About China

China is located in eastern Asia, surrounded by the Pacific Ocean in the east. It is the one of the largest countries in the world. China is a unitary sovereign state and the world's most populous country, it is officially known as the People's Republic of China (PRC). China has a population of over 1.381 billion.

China has turned out to be one of the world’s first civilizations. For millennia, China’s political structure was grounded on monarchies which were hereditary, or dynasties, beginning with the legendary Xia dynasty. China has had the biggest economy in the world for most of the last two thousand years, whilst which it has encountered both the cycles of prosperity and decline.
MBBS in China

Based on the statistics, China has turned out to be one of the most well-known destinations for MBBS in the recent years. When compared to some universities or colleges in the US, UK and other countries; it is not that very hard to get admission by a high rank China’s university to take up MBBS. Moreover, the entrance necessities for MBBS course in China are also lower than in other countries.

By selection China, you can escape the headache of fierce competition. Nevertheless, the low admission criteria does not mean that you must be worried about the education factor. All the approved Chinese medical schools all provide best quality on MBBS course, faculty and facilities are truly worth the fees.

Reasons to Choose China for Studying Medicine

- **Strong economy and stable society:** Economically, it is amongst the strongest countries in the world.

- **Lots of choice:** There are hundreds of medical schools and universities in China offering education to thousands of students.

- **Low tuition fees:** Tuition fees for medical schools in China are very low.

- **Study traditional medicine:** Chinese medical schools also teach students about traditional medicine. This is not usually the case in other countries, and is the best chance to broaden your understanding.

- **Learn the world’s most-spoken language:** The course is parted in English but you will need to learn Chinese (mandarin) which is an added bonus.
Education System in China

Education over there is a state-run system of public education which is run by the Ministry of Education. Each and every citizen must attend school for minimum nine years, which is known as the nine-year mandatory education for which the funds are given by the government. China has also turned out to be one of the top destination for international students.
