About Ukraine

Ukraine is the second largest country in Europe. After the collapse of Soviet Russia in the year 1991, Ukraine gained independence and emerged as a sovereign country. Ukraine is a fertile plain with immense agricultural possibilities along with the presence of heavy industries in the eastern region.

Being a part of previous USSR, Ukraine and Russia share common historical genesis. Kiev is the Capital city of Ukraine. Nearly 44,429,471 people live in the Country as per 2015 data.

It is one of the most beautiful countries of Europe. It has many industrial estates along with several educational institutions which represent the rich culture. The country is notable for tourism and education.
MBBS in Ukraine

At present, students who want to pursue higher study in Medical Science, or want to do MBBS, are choosing Ukraine as their favorite option due to quality education and affordability. The education is cost-effective but quality is excellent. There is a belief that education in foreign country means a lot of amount to be spent. But it’s not true always. Countries like Russia, Georgia, Ukraine has established a remarkable impression by providing quality education at an affordable range. They have been providing this for long because of the support from the Government as the Government fund the education system.

Notable Institutions

There are several Institutions in Ukraine which provide quality education. Among them Poltava, Kyiv Medical University, Kiev Medical University, Bogomolets National Medical University, Kharkiv National Medical University or Ukrainian Medical Dental Academy etc are worth mentioning.

Recognition

All the Medical Institutions and Universities in Ukraine are accredited under World Health Organization and also recognized by the Medical Council of India.
Benefits of choosing Ukraine for Higher Study

There are several benefits of choosing Ukraine as a destination for higher studies especially for pursuing Medical Science. Those are as follows.

- Low tuition fees.
- MBBS in Ukraine maintains a high standard of education and all the teaching staff posses high quality.
- No entrance test is required in most of the institutions and the admission process is hassle free.
- World ranking of Ukrainian Universities is high in almost every field.
- Almost all universities of Ukraine are recognized by international bodies and organizations such as WHO.
- The students who have completed their medical degrees in Ukraine are permitted to apply for International Licensing exams like USMLE (USA), PLAB (UK), MCI Screening Test etc.
- Scope of research and detailed study as per specialization.
- Almost all universities of Ukraine have scope for studying post-graduation and PhD which helps the students to pursue education smoothly from one level to the other.
- Cost of living is also low in Ukraine. A student with a mediocre lifestyle can survive by spending around 100USD – 200 USD a month.
- The medium of instruction is English in most of the courses which is desirable for the International Students as language can play the role of a barrier in many cases.
- The Ukrainian method of teaching is world class and advanced.
- The climate of Ukraine is moderate throughout the year.
- Ukraine has signed a bilateral student agreement with countries such as Finland, Sweden, Czech Republic and others thus making it easier for students to shift and to study MBBS in Europe.
- A vast country with a variety of landscapes and vibrant culture, Ukraine is an attractive destination for those interested in travelling. Students can thus make the most of their holidays by exploring the country they gave chosen to study in.
